

# Monitoring Clinical Responses To Exercise

Joanne Watchie MA, PT, CCS  
Chris Wells PhD, PT, CCS, ATC

Physical therapists can readily assess the functional effects of heart and lung dysfunction by monitoring the physiological responses to exercise or rehabilitation activities. This booklet is a tool for assisting with this assessment of the cardiovascular and pulmonary systems.

## Features:

- ❑ Topics include normal and abnormal response to vital signs, signs and symptoms, and diagnostic test findings
- ❑ Includes section on EKG interpretation
- ❑ Consider for students as supplement for required text
- ❑ 44 page booklet; 8.5" x 5.25" size

## Price:

CV&P Section members
